BOTH SIDES PREPARE FOR DEATH STRUGGLE

Both Sides Are Making Last Hour Preparations for the Battle Royal to Follow Taking Effect of Strike Order—Some Employees Do Not Wish to Quit—Places of Strikers to Be Filled.

Washington, Aug. 30.—With both sides making last hour preparations for the great railway strike Monday, President Wilson has turned all the influence of the administration towards persuading the brotherhood leaders to postpone or rescind the strike order until Congress has an opportunity to act. There are intimations that should the labor leaders continue adamant, President Wilson might make a public appeal to the railway workers themselves to direct their leaders to postpone it. The Senate interstate commerce committee adopted resolutions providing for hearings on the proposed legislation impending the crisis, beginning at 9 o'clock Thursday. Railroad officials, brotherhood officers and representatives of shippers are invited to appear. Each side will be given three hours to discuss their views.

Omaha, Neb., Aug. 30.—Judge Willis Sears in the district court of Douglas county issued an order restraining the general and local officials of the Order of Railway Conductors from calling or enforcing a strike on the Union Pacific lines. STATUE OF DA VINCI.

Work of Bronze Made by the Great Master Himself.

Budapest, Hungary, Aug. 30.—The Museum of Fine Arts has acquired what is declared to be a treasure in an almost unknown bronze statue of Leonardo da Vinci, executed by himself. The Hungarian sculptor, Stephen Ferenczy, bought the bronze in Italy early in the 19th century without knowing that Da Vinci was its creator. It was not until after Ferenczy's death that the authorship was established.

An Albanian contingent is ready to join the five allied countries in Macedonia. The Albanians are commanded by Essad Pasha, chief of the Albanian government who reached Salonica yesterday.

NEGRO IS KILLED BY FREIGHT TRAIN

Unidentified Negro Is Found One Mile Below Wellborn in Mangled Condition Yesterday Afternoon.

The body of an unidentified negro was found yesterday afternoon on the Houston and Texas Central track about a mile below Wellborn. He was hit by a south bound freight train some time during the afternoon and both of his legs were cut off close to his body and his head badly mangled. There was nothing in his clothes to show who he was and his identity is not yet known according to officers. Just what time the accident occurred is also unknown and he appeared to have been dead for some time when his body was found. County officials were called upon to take charge of the body and unless some relatives or friends can be found he will be buried by the county.

GIVEN 3RD DEGREE SUES FOR \$10,000

Fort Worth Man Accused of Theft of Jewels Sues Accuser for Large Sum of Money.

(By Associated Press.)
Fort Worth, Texas, Aug. 30.—R. F. Dixon of Fort Worth is named defendant in a \$10,000 damage suit brought by Robert Townsend, also of Fort Worth, because, it is alleged, Dixon caused "third degree" methods to be used upon him when arrested by the police.

Townsend said he was arrested last July charged with stealing \$1,500 worth of jewels belonging to Dixon and his wife, which were found, according to the petition, where Dixon and his wife had misplaced them.

Townsend declared he was held by the police for two days, and during the custody of the officers he was subjected to "third degree" methods, which alleged mistreatment is the basis for his damage suit.

\$50,000,000 MEXICAN MONEY DESTROYED

Reissuing of Mexican Currency Makes Government Printing Office Busy Place.

(By Associated Press.)
Mexico City, Aug. 30.—(Correspondence of The Associated Press.)—The destruction of the so-called Vera Cruz issue of Mexican currency and the issuance of the new paper money known as "infalsificables" have made the government printing office one of the busiest spots in Mexico. The Vera Cruz bills, over 50 million dollars worth of which have been destroyed, are cut into strips in a hydraulic press, transformed into pulp and made into cardboard and pasteboard, of which there is great scarcity. This product finds a ready sale and it is possible that the government may also destroy old documents to produce material for a government box factory in the near future.

The department is now working at high pressure to turn out the new "infalsificable" \$2 bills, sorely needed because of the scarcity of small change. Not only the modern presses but even the old hand presses are being utilized to expedite the work.

The tremendous quantity of stamps and postcards printed under the Huerta regime are being revaluated by the impress of a special die changing the denomination.
